Sustainability and Resource efficiency

Our eco-labels

The Planta product range has at least one eco-label. It identifies more environmentally friendly and healthier products than comparable goods. The Austrian Ecolabel also labels products according to a similar procedure.

We received platinum for the second time in a row

Only 1 % of all companies rated by Ecovadis have been awarded platinum. Ecovadis is one of the world's most renowned sustainability ratings.

Our quality, environmental and occupational health and safety management systems are certified

Quality management
ISO 9001

Environmental management
ISO 14001

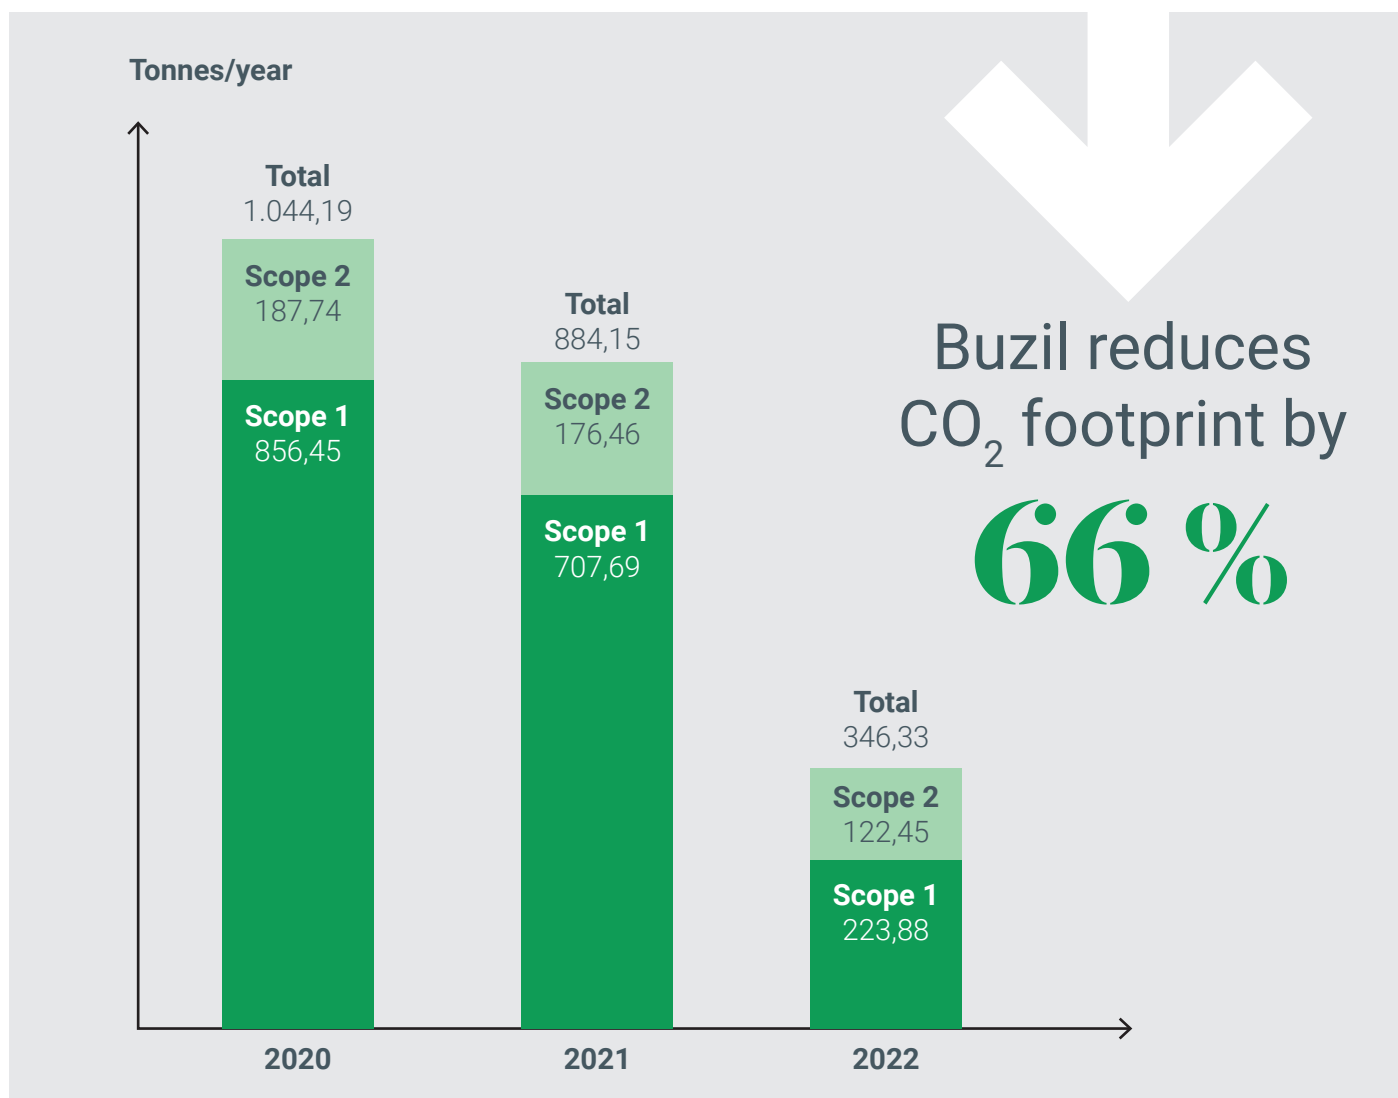

Occupational health and safety management
ISO 45001

The certified products can be used without hesitation in food processing areas that work in accordance with Halal regulations.

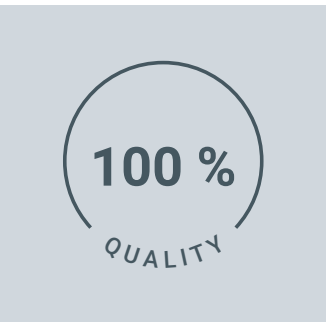

With Buzil as your manufacturer, you benefit from a future-proof partner who produces your products in a resource-efficient manner. We take responsibility for a future worth living!
Design your products to be environmentally friendly and sustainable and have them certified accordingly.

Since 2022, Buzil has reduced CO₂ emissions per tonne produced by 66% through

- Conversion from gas to district heating
- Reduction of the process temperature for AdBlue production by 35° C
- Modernisation of the hot water boiler
- Reducing electricity consumption through various measures

Since then, Buzil has been CO₂-neutral in Scope 1 + 2 through offsetting and further reductions.

Private label at the highest level

As experts in liquid chemicals and cleaning products, we have extensive expertise and offer our customers individual advice and customized services. Thanks to our many years of experience in the industry, we fully understand the diverse requirements and needs of our customers. Our aim is to offer solutions that meet your specific requirements exactly.

Your brand deserves our expertise

Our more than 100 years of expertise in the development and production of chemical-technical products and cleaning chemicals at the Memmingen site in the Allgäu region guarantees you the highest quality and reliability.

We offer you advice from technical specialists who work closely with you to develop products that not only meet your customers' expectations, but exceed them. We take care of all legal matters so that you can concentrate fully on your business.

Choose tried-and-tested white label formulations or develop customized formulations according to your wishes. Our service covers the entire process chain from layout design to certification and customized packaging – for an fully satisfying experience.

Your advantages with Buzil

Market segmentation and differentiation:

Expand your product range and appeal to different target groups without diluting your brand.

Cost saving:

Benefit from cost-effective production options and economies of scale without having to set up your own facilities.

Flexibility and agility:

React quickly to market changes and customize products to meet individual customer requirements.

Focus on core competences:

Concentrate on marketing and sales while we, as an experienced manufacturer, take care of production and the supply chain.

Risk minimization:

Reduce your risk as we guarantee continuous quality assurance and compliance with regulations.

Sustainability:

Benefit from products that are developed and produced in a way that conserves resources, are highly recyclable and are less harmful to people and the environment.

We look forward to working in partnership with you to increase your competitiveness and drive the growth of your company through a consistent focus on quality, design and innovation!

Our path to perfection

Idea & Concept

White Label

You use tried and tested recipes

- Cost advantage
- Immediately available
- Smaller purchase quantities

Private Label

We develop your customized product

- Acceptance agreement
- Product benefits through colour, odour and mode of action

Contract manufacturing

We produce your recipe

- Outsourcing of production creates more capacity

Product design

Individuality

- Area of application
- Packaging + labelling
- Colour, odour, viscosity

Certification and marketability

- Eco-label
- Sales markets

Data sheets

- Safety data sheet
- Technical data sheet
- Environmental certificate

Procurement

Raw materials

Labels

Packaging

Optionally by us or provided by you

Production

100 % quality assurance

of all batches produced and raw materials used

Filling

Finished product or bulk in large containers

Just-in-time

Usually 5-7 days after placing the order

Delivery

Delivery

Through us

Collection

Through you

Interim storage

For fulfillment service providers

To you or directly to your customers

White label portfolio

Use our proven formulations for your products! Fast availability, low minimum order quantities and no development costs - benefit immediately!

Rinse aid neutral	unlabelled	yes

Purchase quantities

Our products are B2B-capable and offer a standard minimum order quantity of 3000 litres for fully automated production. On request, we can also offer smaller quantities of 1000 litres for many products. Flexible, scalable and customized to your needs!

Private Label

Together we develop products according to your wishes or optimise existing formulations. Benefit from tailor-made solutions for effect, material compatibility, certification, colour, fragrance and viscosity. Your customized product, perfectly tailored to your requirements!

Development agreement

Conclude an agreement with us to realize the perfect product according to your wishes. Benefit from security thanks to minimum purchase quantities and mapping of development costs within a defined period.

Determination of requirements

Use our checklist for precise and customized development. We understand your needs and ideas exactly and ensure that the result is a perfect fit for you.

Checklist

Product

- Area of application
- Application type / concentration
- How should samples be tested?
- pH value
- Chemical properties, (e.g. material compatibility)
- Colour, fragrance, viscosity
- Container (litres) + cap
- Product name
- Contact for development and testing
- Contact person for offer

Time

- Desired market launch date
- Sampling date

Distribution

- B2B / B2C target group
- Desired market price
- Planned sales volume
- Distribution in which countries
- Safety data sheet in which languages
- Label template by customer or Buzil
- Manufacturer in the UFI code customer or Buzil
- Competitive products
- Seasonal product
- Sales unit
- One-time or recurring order

Logistics

- Specifications regarding sales units / pallets
- Packaging labelling
- Minimum order quantity

Contract manufacturing

As the owner of a recipe, you benefit from our capacity for procurement, production and filling. We offer automated processes on state-of-the-art equipment with 100% quality assurance to perfectly fulfil your requirements.

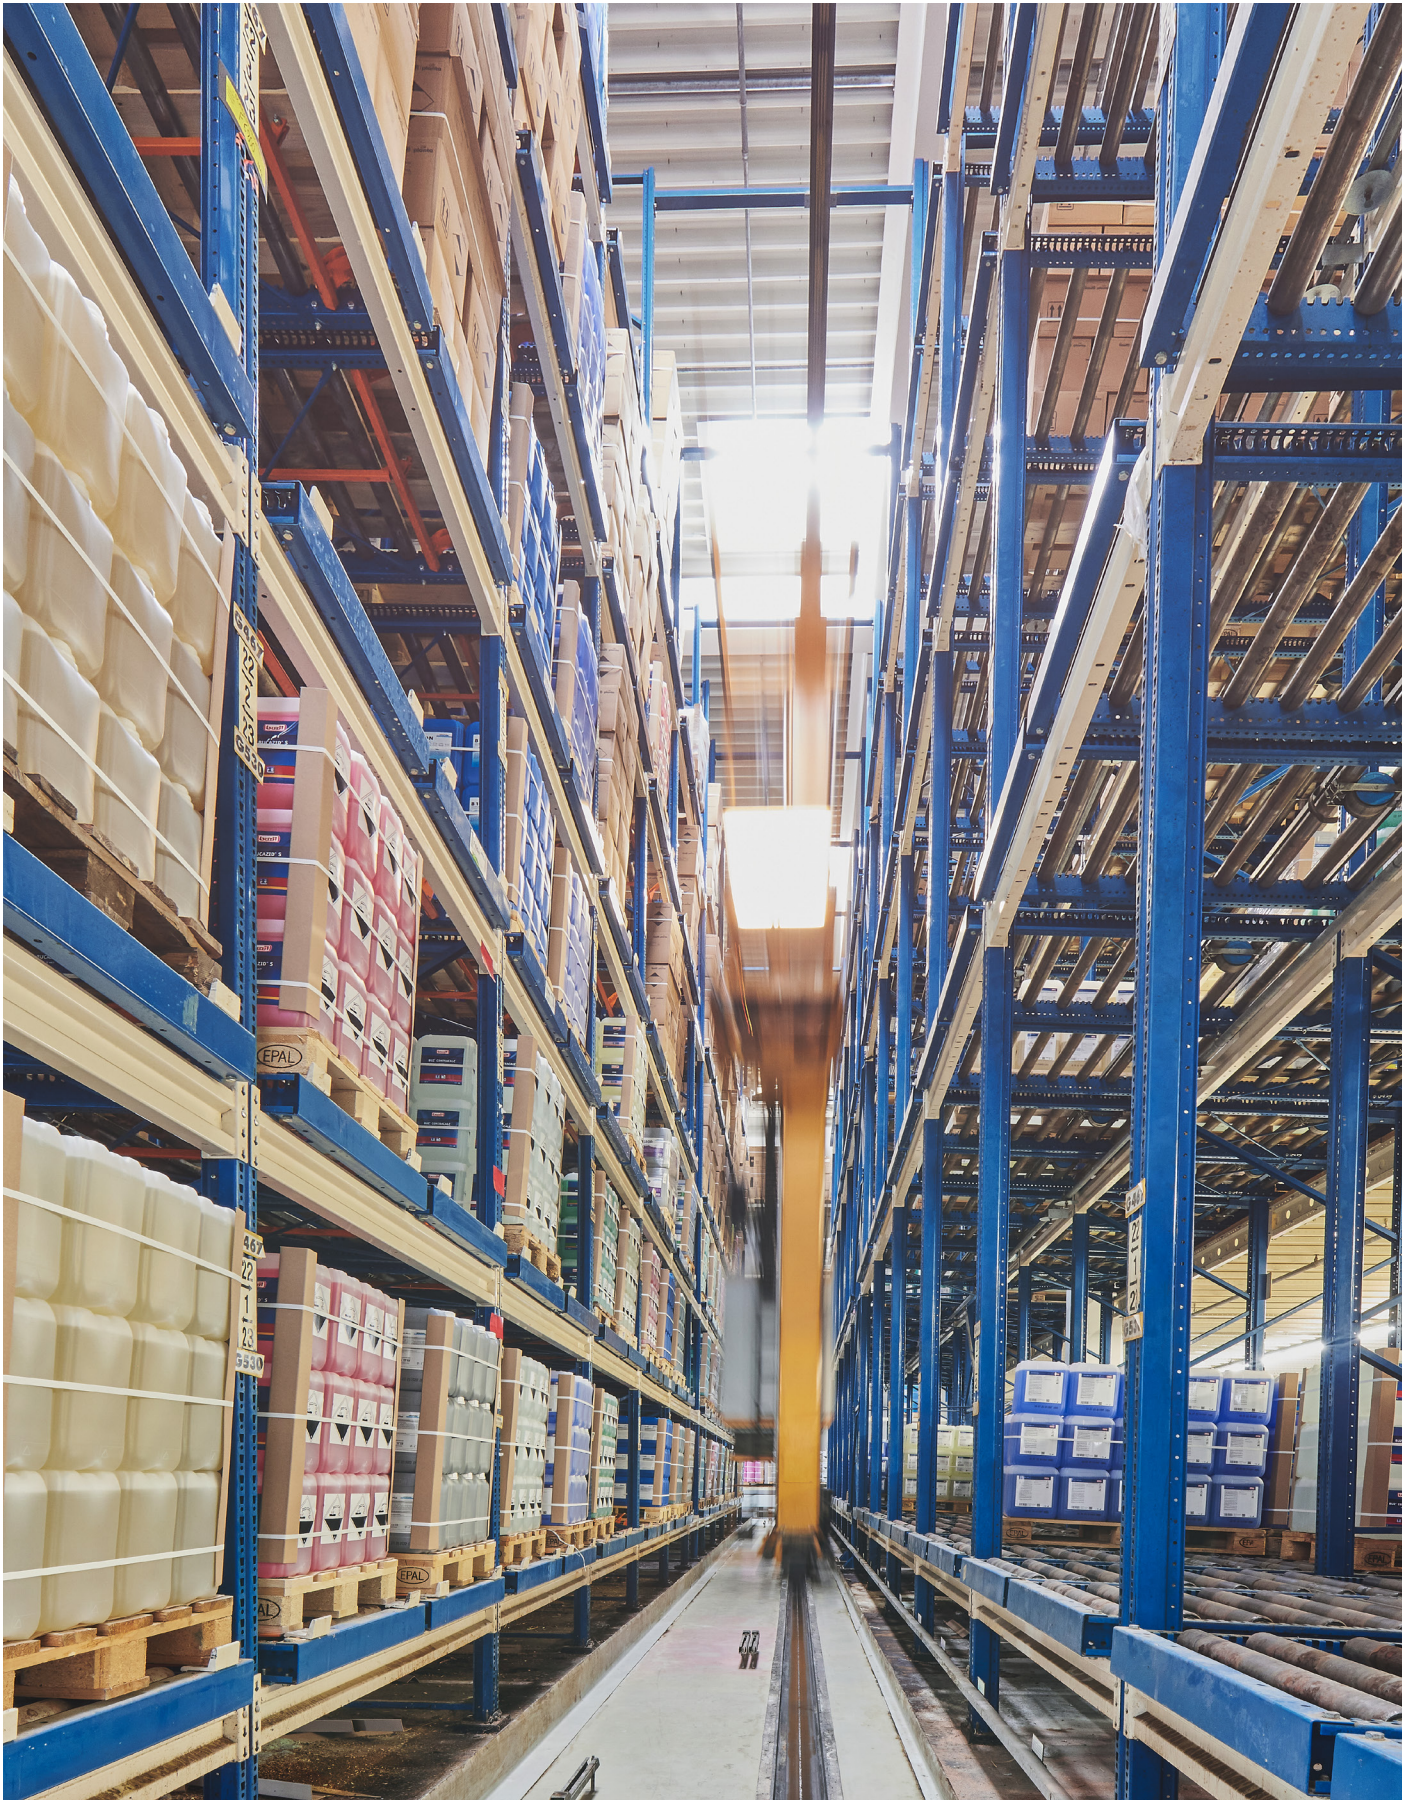

Conclude an agreement with us for customized production solutions according to your specifications. We ensure quality through desired raw materials and defined suppliers. Our services include confidentiality, joint further development and research & development, if required, together with your team of experts.

We process liquid chemicals, but no CMR substances (carcinogenic, mutagenic or toxic to reproduction). Our highly automated production and filling guarantee efficient processes and short delivery times for your satisfaction.

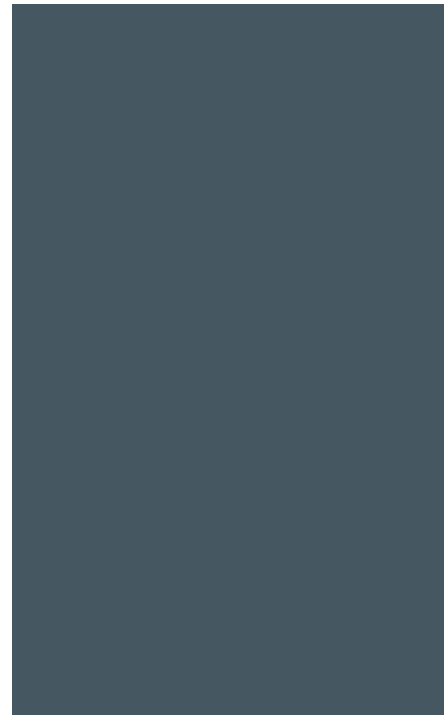

100 %

Quality assurance
with retention sample
